NUMBER 5

# P.O. AGENT SELLS BELOW FACE

September 1, 1976.

Dear Friends:-

I'm sure - yes, almost positive that every stamp collector and stamp dealer in Canada is strongly opposed to our Post Office selling Canadian stamps to foreign stamp dealers at up to 30% under face value. I'm just as sure that every citizen in Canada given the correct information would also oppose our Government selling mint stamps under face value.

Now the Canadian Post Office's Official Agent in the U.S. is advertising to sell Canadian stamps below face in any quantity, and a form letter distributed by P.C.L. Agency Services and signed by Edith Hillman, Manager, reads in part as follows:

1. **"U.S. funds at par.** The Canadian dollar has commanded a premium of up to 5% over the U.S. dollar in recent months. **Don't worry about exchange rates — we accept U.S. dollars at par with Canadian —** and you don't need an International money order.

2. **Buy what you want.** We can provide singles (even broken sets) plate blocks (any or all positions) sheets, or whatever you need.

3. **No postage or shipping charges** on orders over \$10.00"

Unbelievable but there it is - proof positive. Canadian stamps sold under face by our Government appointed agent.

So a U.S. stamp dealer, buying Canadian stamps from our Post Office (receiving up to 30% discount) then sells to U.S. collectors at up to 5% below face, depending on the exchange rate, and still makes a good profit and DOES NOT PAY CANADIAN TAXES. DOES NOT EMPLOY CANADIANS.

I've spent a lot of time, and gone to a lot of trouble and expense to get the message across, but the boys in Ottawa are not listening.

Honourable Bryce Mackasey, Sir, please change the policy to "NO CANADIAN STAMPS TO ANYONE UNDER FACE."

Recently I purchased a very fine British Colony and Canada collection from Mr. A. V. Davage of Toronto. Mr. Davage started collecting 50 years ago with a collection his father gave him and now had 12 beautiful albums, all neatly mounted and arranged with stamps in perfect condition.

The Canada is particularly nice with a page of the 3d. Beavers, including items marked on the back that were purchased from Fred Jarret in February 1949 and Mr. Sparrow in 1947 and Mr. Barnes in 1947, and also Empire 3d's purchased in 1962.

There is a beautiful mint 2c. 1864, along with other fine 1859 issues. From there on the collection is pretty well complete mint and used, with the modern issues of course, including \$1.00 issues in blocks of 4. Mr. Davage particularly liked the 50c. O.H.M.S. and purchased 5 blocks of these. One went in his collection and the other 4 he gave to his daughter, Mrs. G. Sargeant. When I told him how much I would pay for these 4 blocks, he was delighted and said that he would pass the information on to his daughter, and early the next morning, Mrs. Sargeant was here with the blocks along with the \$1.00 Fish plate block and these are all now in the Empire stock.

I know that I am a little premature, but let me tell you about the big Stamp Show here in Toronto in 1978. This will be the first International Show in Canada since CAPEX and it will be held at the Exhibition grounds here in Toronto. You will be hearing more about this Exhibition, and I sincerely hope that you will give the Executive all the support that you possibly can. It is certainly going to be the BIG, BIG SHOW OF THE CENTURY FOR CANADA.

By the way, I still want to buy stamps, so if you have anything for sale, please write or telephone.

Philatelically yours,

HARRY B. MARTIN, Jr.

# THOUGHTS & THINGS . . . . . FROM THE EDITOR

## ONE DOWN, ? TO GO -

The Montreal Olympics are over and the last (we hope) of the 35 Olympic stamps has been produced. About these, Lucius Jackson, publisher of *The Stamp Wholesaler* wrote: "The Montreal Olympics have been marked by more stamps at a higher total face value than have been issued by any previous host nation in the long history of the Olympic Games.

"In an added effort to make collectors pay for the event, Canada has issued a number of coins and medals, all at outrageous prices, and has topped this with various metallic reproductions of its Olympic stamps . . ."

Now there are rumours that a similar scheme will be instituted to help defray the costs of the Commonwealth Games in Edmonton in 1978.

Perhaps the CP can be talked into doing the same for CAPEX 78, but I hope not. There will be a stamp(s) for the centenary of Canada's entry into the Universal Postal Union and it is a foregone conclusion that the day of issue will coincide with Capex. Perhaps we shall see Canada's first souvenir sheet for that event. And why not? The CP seems to have tried everything else but that form.

Whether the Olympic stamp and coin issuing scheme was financially successful we may never know. However, I hope that we shall see the figures for the numbers of stamps issued, sold, FDCs serviced, metallic reproductions, souvenir books and the like, that were sold and the amounts (gross and total to COJO) realized.

pmm

## NOTICE TO MEMBERS

**The same staggered mailing system for the 1977 annual dues notices will be used again this year from September onward. It will be done on a geographical basis.**

**Renewal of your membership as soon as possible after you receive your notice would be appreciated.**

**A U.S. bank account has been opened, so from now on members will not be asked for the 25 cents service charge on foreign cheques.**

## AVIS AUX MEMBRES

Le même système de correspondance sera encore utilisé cette année à partir de septembre pour les avis de cotisation de 1977. Il sera fait sur une base géographique.

Le renouvellement de votre réinscription annuelle aussitôt que possible après avoir reçu votre avis serait grandement apprécié.

Un compte de banque américain a été ouvert de sorte qu'à partir de maintenant on ne demandera plus aux membres de payer 25 cents de frais de service pour les chèques étrangers.

Mme G. M. Geldert  
Directeur exécutif

## MOVING?

If you are moving or have moved, please be sure to inform the Secretary of your new address as soon as possible. Please include your former address when you write.

---

MAKE A COLLECTOR HAPPY  
USE COMMEMORATIVES ON YOUR MAIL

---

**FURTHER NOTICES TO MEMBERS****ASSISTANT EDITOR [FRENCH]  
APPOINTED**

In order that we may present articles in French, we have appointed another assistant editor. The newest of the editorial team is André Bisaillon of Saint-Hyacinthe, Quebec. André will look after articles, notes, etc. from members who wish to submit material in French rather than in English.

All such material should be addressed to: Dr. André Bisaillon, 3130 rue Sicotte, Saint-Hyacinthe, Quebec, J2S 2L8.

Articles in English should still be sent to the editor or assistant editor, Dr. Fred Stulberg.

**NOMINATION D'UN ASSISTANT  
ÉDITEUR DE LANGUE FRANÇAISE**

Afin de présenter des articles en français, nous avons nommé un autre assistant éditeur. Le nouveau membre de l'équipe éditoriale est le Dr. André Bisaillon de Saint-Hyacinthe, Québec. André s'occupera des articles, des notes etc. des membres désireux de soumettre des articles en français plutôt qu'en anglais.

Tout correspondance doit être adressée à 3130 rue Sicotte, Saint-Hyacinthe, Québec, J2S 2L8.

Les articles en anglais doivent être envoyés à l'éditeur ou à l'assistant éditeur Dr. Fred Stulberg.

**SOCIETY CORRESPONDENCE**

Please note that a stamped, addressed envelope no longer needs to be included with correspondence to officers of the Society that requires a reply.

**MISSING JOURNALS**

If you do not receive your copy of the Canadian Philatelist within a reasonable

time, please inform the Secretary, P.O. Box 4195, Station E, Ottawa, Ontario, Canada, K1S 5B2, and your missing copy will be forthcoming. **Do not** contact the editor regarding missing copies. If you do, you will have to wait longer while your letter is forwarded to the Secretary.

**CORRIGENDUM**

You may have wondered at the caption to the photograph on p.235 of the July-August issue of the Canadian Philatelist. If you delete the second line, it will make sense. The photograph might make an interesting cachet but I don't think it would sell.

**MADESKER IS SIP PRESIDENT**

Michael Madesker, R.P.S.C. Coordinator of Youth Activities, was elected president of the Society of Israel Philatelists at Interphil 76 last month. He thus became the first Canadian president of this society. He will serve a two year term in that office.

The Society of Israel Philatelists is one of the larger international philatelic specialists' organizations. It has 2100 members in North America alone and 48 active chapters in Canada (3), U.S.A., Mexico, Israel, South America, Great Britain and Continental Europe.

**A NEW STAMP CLUB**

Members in the Lindsay, Ontario region may be interested in learning that a new stamp club has been formed in their area. It is the Lindsay Stamp Club, which meets on the first and third Wednesdays of each month in the Public Library, Lindsay, Ontario. Further information may be obtained from Bruce MacLean, President, 40 Elaine Drive, Lindsay, Ontario, K9V 4X8.

**BNA WANT LISTS WILL BRING RESULTS**  
Postage, Officials, Revenues, Plate Blocks, etc.

**L.C.P. DAVENPORT**

7 Jackes Ave., Apt. 308, Toronto M4T 1E3, Ontario

**MAURICE WILLIAMS, 1905 - 1976**

Maurice Williams, doyen of Cinderella philately and well known throughout the stamp world, died, aged 70, of a heart attack on June 15th. Confined to a wheelchair since he contacted polio at school at age 14, he overcame this disability by turning to the study of stamps and was a familiar figure at exhibitions. His interests were universal and his knowledge of private posts unrivalled but he will perhaps be best remembered for his writings, both in the philatelic press and of such books as "The Fundamentals of Philately", "Stamps of Fame", "Rare Stamps", and "The Postage Stamp, Its History and Recognition" published by Penguin Books and translated into many languages. Everything was of course written with his younger brother Norman under the now famous by-line, L.N. and M. Williams, and this work will now be continued by Norman. His death is a sad loss to his family and to philately.

from Stamp Collecting,  
June 24th, 1976.

**INTERPHIL 76 CATALOGUE AVAILABLE**

The 268 page catalogue of the exhibits at INTERPHIL 76 which contains the exclusive souvenir sheet (6 x 9 inches) issued in honour of INTERPHIL 76 by the American Revolution Bicentennial Administration, and produced by the Bureau of Engraving and Printing, Washington, is available in limited quantities.

The catalogue is replete with illustrations, many in colour, on most of its pages. The contents are too numerous to detail but include a 16 page full colour reproduction of the Aristocrats of Philately, 31 of the world's greatest stamp rarities, illustrations of every major award given, illustrations of some stamps from the Royal Collection and, of course, an alphabetical index to all of the stamp exhibits.

The cost of the catalogue is \$5.00 and may be ordered from INTERPHIL '76 Catalogue, P.O. Box 800, State College,

PA, 16801, U.S.A. A blank copy of the International Philatelic Passport (cost is \$1) will be included free with the catalogue on a first come, first served basis.

**PHILATELIC FOUNDATION LEAFLETS AVAILABLE**

A spokesman for the Philatelic Foundation states that copies of the past analysis leaflets:

United States Coils  
1909 Bluish Papers  
1875 Re-Issue

The Columbian Issue  
are still available, free of charge, to interested collectors.

Other leaflets available free of charge are:

"Wide and Narrow Spacings on Flat Plate Coil Line Pairs"  
"The U.S. One Cent Stamp of 1851, Type I (7R1E)"

Those collectors interested in obtaining one or all of these leaflets should write, enclosing a self-addressed #10 envelope, to: The Philatelic Foundation, 99 Park Avenue, New York, NY, 10016, U.S.A.

**EXCHANGE REQUESTED**

J. Nijland, of the Netherlands, is looking for someone who would like to exchange Canadian for Dutch stamps. Anyone who would be interested in such an exchange should write to Mr. Nijland whose address is: J. Nijland, Admiraliteitslaan 422, 's-Hertogenbosch, Nederland.

**CALLING ATTENTION TO**

In recently published philatelic journals are three articles which I found particularly interesting. The first, on preparing tape/slide programmes is described in the Bookshelf section. The second is one of the 1976 Congress Papers: "Exhibitions, Exhibitors and Judges" by George South, M.B.E., in Stamp Monthly (Gibbons), June 1976, pp.40-43. Mr. Smith makes some personal and astute comments on these

**R. M. Lyman** (CANADA)  
 COMPANY

Box 23 - RP, Station V, Toronto, Ontario M6R 3A4

subjects, directing his focus primarily on international exhibitions and their judges. He concluded his paper with this comment, "... exhibitors at exhibitions should exhibit primarily for the purpose of giving pleasure to others. Any award should be of minor importance. In fact, the best reward is to hear some stranger say how very much he has enjoyed your exhibit. Never let philatelists turn into pot hunters; to do so is to debase the hobby."

The third article is in an entirely different vein, being a humorous treatment of the future of collecting mint, never hinged stamps. The title alone indicates what to expect. "1984 - Unmounted Mint Still Rules (or Are Unhinged Collectors Mad?)" by E. Bygum, Stamp Collecting, July 1st, 1976, pp.1069 & 1071. Can you imagine an "unmounted mint used stamp"? Read this article and you will learn how such a contradiction could be possible.

## UN FIELD POST MONOGRAPH

The european UN-group (based in West-Germany) together with the "Nordic States Study Group" intend to publish a **monograph on the Field Post of the UN contingents from Denmark, Finland, Norway and Sweden**; It should cover all philatelic aspects of their activities in **past and present UN Peace Keeping Operations**.

Collectors having letters, airletters, special cancels, cachets, postmarks, registered labels, etc. are kindly asked to send copies of the items or cancels for information either to Mr. Ch. Schlachetzki, Rethelstr. 133, D-4 Dusseldorf (Fed. Rep. of Germany) or to Mr. J. L. Emmenegger, P.O. Box 795, CH-4001 Basel, Switzerland.

We thank very much in anticipation all collectors expecting to cooperate in elaborating this monograph.

# CANADIAN BOOKLETS OF THE DEFINITIVE ISSUE, 1942-9

by C. F. Black

This issue, also known as the War Effort issue, was introduced on July 1st, 1942. The first booklet, containing two panes of four of the three cents carmine stamp, appeared nine days later. Thus commenced one of the most interesting series of booklets issued by Canada.

Interest in the booklets does not lie primarily in the stamps, but in the entire booklets, which provide a surprising number of collectable varieties. It was the first issue to have bilingual inscriptions, and the only one to appear in English, French and bilingual versions. There were two innovative sizes of booklets. These were the three stamp pane 'chewing gum' size, which lasted a number of years, and the large Gift Folder, the 'Christmas Booklet' of 1947, which was not popular, and many of which were broken up in post offices.

The denominations of the stamps in the booklets were governed, of course, by the current rates of postage. When this issue was introduced, and until March 31st, 1943, the Domestic rate for first-class letters was 2c for local delivery and 3c for out-of-town mail plus 1c and 2c respectively for each additional ounce. On April 1st, 1943, the rates for the first ounce were each increased by one cent. These rates remained in effect until the issue was superceded on November 15th, 1949. Air mail rates are also relevant, as they were given on a rate page in most of the booklets. The Air mail rate within Canada, from July 1st, 1942, until March 31st, 1943, was 6c for the first ounce and 5c for each additional ounce, and thereafter, until the issue was superceded, 7c and 5c. The air mail rate to the United States was 6c per

ounce until March 31st, 1943. On April 1st, 1943, it was increased to 7c. for the first ounce, and on November 1st, 1946, the rate for each ounce over the first was reduced to 5c. It is convenient to classify the booklets into groups by reference to the current U.S. Air rates, as given on the rate page.

The change of rates on April 1st, 1943, was rather sudden, and booklets with revised rate pages were not available. Instructions were issued accordingly to post offices to cross out with red pencil the rate pages in all booklets then in stock. The booklets in production at that time were either issued without rate pages or with pages overprinted by crossing out the superceded rates with heavy black lines and adding the new rates below.

All booklets were produced by the Canadian Bank Note Company, Ottawa. The stamps were recess printed on medium wove paper, and line perforated 12. The ink used for two denominations, the 3c carmine and the 4c, was fluorescent. The so-called 'secret dates' appear in the inverted 'V' in the centre of the bottom scroll, '1942' on the 1c, 2c and 3c, '1943' on the 4c and '1946' on the 7c Air stamp from 1947 Gift Folder. The gum is white, except on the stamps in the Gift Folder, where it is brown.

The value of the stamps in each booklet, except the Gift Folder, was 24c, and were sold at 25c. The Folder had 98c worth of stamps and was sold for \$1.00.

The front covers are in three basic designs. For most of them, during their periods of usage, two, three or more dies were used. They may be distinguished by the pattern of dots, particularly in or around the letters of the inscriptions, or

around the edges of the Arms or the inscription frames.

Until about the middle of 1943 the back covers were inscribed 'POST OFFICE MONEY ORDERS . . . .' or the French equivalent 'LES MANDATS DE POSTE . . . .' The inscriptions were then changed to 'POSTAL NOTE SCRIP . . . .' or 'BONS POSTAUX D'APPOINT . . . .' On the 4c English and French booklets with the April 1943 overprinted pages both back cover inscriptions are found on otherwise identical booklets. Currently, on the back covers of the Gift Folder there seems to be an inconsistency. The English inscription is 'POSTAL NOTE SCRIP . . . .', but the french is not the equivalent 'BONS

POSTAUX D'APPOINT . . . .' but 'LES MANDATS DE POSTE . . . .'

On both front and back covers there are shade variations, some of them quite marked.

Two papers were used for the printed pages. A shiny off-white paper was in use until about mid-1946. It was followed by a dull white paper. At least one pair of booklets, the 1c, 3c and 4c Combination booklet, English and Bilingual, with 7c and 5c U.S. Air rates, may be found with either paper.

In this issue, for the first time, three lengths of staples were used, 12mm, 14mm and 17mm. The 17mm was the most generally used.

# STAMP COLLECTION?

# TROPICAL TOPICALS

OR

## Collecting South America Topically

By Steven Slavik

South America is truly as fabulous a treasure mine for North America collectors as it was for the Conquistadores. In ten minutes I have thought of almost twenty topical collections I would be delighted to make, had I time and the finances for the effort. Any one of them would be a collection interesting to form, educational in its presentation of international affairs, and also beautiful. For example, consider a collection based on the theme of Lima, Peru. Peru has issued many stamps which portray landmarks in and about Lima, maps, explorers, liberators, and statesmen of Lima. Peru has also issued stamps overprinted "LIMA" for postal and philatelic use. Chile overprinted Peruvian stamps and postal stationery in Lima during their occupation of Peru in 1879-82. One could also consider for such a collection covers posted to and from Lima, unique first-flight air covers from Lima to North America and to other South American capitals, and the like. Moreover, Spain has issued stamps commemorating the explorers of Peru, archbishops of Lima, and others. In fact, such a collection is possible for any capital city in South America. Even lesser cities such as Maracaibo or Ushuaia in Tierra del Fuego could be treated with just as much interest but more searching may be required.

Also consider river-boat mail or other travelling post office mail in South America. I have seen records of so-called "Fluvial" mail from the Amazon, the Paraguay, and Parana rivers. There are also the "ambulancias" from Chilean and Bolivian railways, and such surely exist from the Argentine, with its extensive railway system. The history of air post could fill many albums with airmail overprints, regular airmail issues, first flight

covers, Zeppelin covers, and wreck covers.

South American countries are great for commemorating presidential visits. I can call to mind many issues illustrating intra-continental visits of presidents and very nearly as many intercontinental visits from Europe and Asia to South America countries.

Three major wars in South America in the philatelic period ought to offer interesting material for study and collection. The War of the Pacific has been well covered in philatelic literature, and some material is listed in Scott's under Occupation Issues of Peru. The War of the Chaco, fought between Bolivia and Paraguay, ought to offer material to a diligent searcher, especially as it occurred in the 1930's. Further back in history, the war between Paraguay and the Triple Alliance (Brazil, Argentina, and Uruguay) in the 1860's did generate some military covers from each of these countries, and foreign postal service in Paraguay, although it may be difficult to find material now.

Consider also four commodities which we in Canada frequently obtain from South American countries: bananas, coffee, oil, and minerals. Each of these is a topical philatelic mine in itself. The number of stamps depicting bananas, coffee, oil, and minerals or mining is extensive, but the number of available commercial covers from South American producers of these items to North America must be tremendous. For example, consider the trade in coffee. Covers to the United States from coffee producers in South America must end up somewhere. In addition, but probably very difficult to obtain, the trans-Atlantic correspondence between the members of the world coffee cartel in Africa and South America would make an

exciting contemporary collection. Correspondence from oil and mining or mineral-producing companies can be treated in the same way. Alcan, for example, might have as big a share in South American mining as they do in West Africa, and many Canadian suppliers of scientific equipment, such as Wild-Leitz, have sold material to South American industry through government loans. The firm of A. H. Thomas in Philadelphia maintains a large export business of major scientific equipment which would go to universities as well as these industries. Covers from the transactions of such businesses should be plentiful and inexpensive.

A collection which interests me right now, and involves no more than the cost of the stamps (as opposed to covers) is one of foreign-made issues for South American use. With ease I can think of countries which have contracted to the Bundesdruckerei, Berlin; Staatsdruckerei, Vienna; Institut de Gravure, Paris; the American Bank Note Company, New York; Heraclio Fournier, Vittoria, and the F.N.M.T. of Madrid, for their stamps. And this list of printers does not mention English firms, or South American firms which have contracted to print stamps adjoining countries. An example of the latter is the Casa de Moneda of Chile which recently produced stamps for Paraguay. Alternately, one could collect locally lithographed or engraved issues, or counterfeits, or reprints.

Last, but hardly least, one could consider a postmark collection on types A73-A77 (Scott) of Brazil. I have seen red, purple, green, black, single-line or double-line circular date stamps; oval date stamps, postmarks with large letters or small letters, undated and mute cancellations, straight-line and octagonal cancellations. And such a collection is perhaps the cheapest of all since the stamps are so common.

Thus it is easy to see that there are very many topics relative to South America that could be collected. Although I haven't been collecting these countries for very long, I

have found it easy to obtain stamps and catalogues from South American dealers, philatelic and historic literature in English, and above all, these interesting subjects, many of which have threads into our daily life and recent history, can provide material for years of collecting.

# STAMPS FOR THE DAY

By Beverlie A. Clark

Guelphoto

**Fig. 1. Canada's St. Lawrence Seaway Stamp [Sc. 387] of June 26, 1959.**

Guelphoto

**Fig. 2. U.S.A. St. Lawrence Seaway Stamp [Sc. 1131] issued on the same day as Canada's.**

## THE ST. LAWRENCE SEAWAY CANADA — U.S.A.

The story of the St. Lawrence Seaway & Power Project is an extraordinary one of co-operation between two great nations, Canada and the United States of America, joining together to plan, construct, to pay for, and to share the benefits of one of the greatest engineering and construction projects in history.

The Seaway is an 189-mile stretch of the St. Lawrence Waterway, consisting of a minimum 27 foot deep channel from Lake Ontario to Montreal with a series of canals and locks which raise or lower vessels 224 feet. And to fully utilize the waters of the St. Lawrence a powerhouse taps a potential of over two million horsepower of electricity, which is divided equally between the two countries.

The key to the Seaway is that majestic waterway, the St. Lawrence River, issuing from the Great Lakes and flowing over 1300 miles before it merges into the Atlantic Ocean, with every mile along its course entwined with the history of Canada and

the United States.

To the Indians who first used the river system of the St. Lawrence, its tributaries and the Great Lakes, as the first highways into the heart of the continent of North America, there were only minor navigational obstacles. Their birch-bark canoes could travel with little inconvenience, and in winter, when the river was frozen, they travelled on foot. However, with the arrival of the white man and the shipping of large cargoes in the more cumbersome, wooden, flat-bottomed bateau, travel along the waterway was hindered by the many dangerous rapids and other hazards presenting major obstacles. The completion of the Seaway fulfills the dream of these early pioneers of three centuries ago, of a waterway which would make it possible for ocean vessels to sail over 2,300 miles from the Atlantic Ocean to the inland ports of the Great Lakes.

Generally, the initial canal-building period is considered to be the first half of

**THE WINNIPEG TAGGED**

I'm often asked: "how come you live in Winnipeg and have yet to advertise a comprehensive lot of Winnipeg Tagged stamps?" Procrastination I suppose. After all it took the general catalogues quite a few years to admit that Canadian Tagged stamps existed and even now no attempt is made to separate the Winnipeg Tagged from the much later General Tagged.

The Winnipeg Tagged were for almost 10 years the pioneers; in fact for several years they were the first and only Tagged stamps in the Western Hemisphere.

Then I made the usual miscalculation with the first 1962 set. I bought some quarter million sets in sheets and promptly removed the plate positions and got rid of the balance fast to postal users at 4% under face value! Now if anyone has a set in sheets I'll be glad to pay \$500.00 for them. Since the face value is only \$15.00 who says modern Canada are not a good investment.

At any rate offer a fine mint set of the very first Winnipeg Tag set at \$10.00. This number one set will eventually retail at \$25.00.

And a fine mint set of the last regular postal set 4 values 10c. to 25c. also at \$10.00. These came out Sept. 8, 1972 and lasted but a very short while as they were soon replaced by the General Tagging. Long since sold out everywhere.

**NOW FOR A SPECIAL OFFER**

Both above sets, the first and last for \$20.00 and free with every order one more of the first sets, this one on a First Day Cover (the first such cover in the Western Hemisphere). This alone retails at \$15 to \$20.

Blocks of all above \$80.00. Includes a free set of 5 First Day Covers each with a different block of the first set.

\* \* \* \* \*

**COLLECTIONS OF WINNIPEG TAGGED**

What about the rest of the Winnipeg Tagged? Well I do have collections of most in between and they are available on approval on request. Stamps come mounted in my Foursquare mounts in the same order as listed in my Elizabethan Canada 1953-74 Catalogue. Once the collection arrives, take any desired at 20% discount or the entire collection at a substantial lower price.

\* \* \* \* \*

**THE ELIZABETHAN CANADA 1953-1974 SPECIALIZED CATALOGUE**

And here's one good reason why you will need this catalogue. Take a look at most any other listing of Canadian Tagged stamps and they don't separate the Winnipeg Tags from the General Tags. And by the way Winnipeg Tags are as different from General Tags as day is from night. In my catalogue the Winnipeg Tags are in an entire section on their own. They deserve pride of place as they began the Tagging process on this continent. Listed are over 100 major varieties plus many minor varieties plus 9 miniature sheets and booklet panes. Pricing is for singles, blocks, mint and used, also first day covers where such exist.

One of the major varieties is an exasperating wonder. It exists used but to this date no one has found a mint copy and I've a standing offer of \$500.00 for the first one sent in to me. It exists alright but is unrecognized and unknown and someone who knows what to look for will be very lucky.

But you need my catalogue to tell you what it is all about. The price is \$10.00.

\* \* \* \* \*

**ONE OF A KIND OFFERS**

Now and then do pick up very unusual collections. A recent purchase was an 1865 Oppens album. Last stamp mounted in it 1875! Still have a few sections left. Best is the Japanese group between Scotts #33 and 50 all bright unused stamps. Somebody is going to be very happy with this lot of Japanese classics at \$500.00. First check gets it, all others will be returned. As a rule I never advertise such purchases except as now to give you some idea of what may be available at times.

\* \* \* \* \*

**REPLIES:**

This advertisement appears in over 10 magazines some of which are weeklies, others come out once a month. More or less this advertisement will be spread over 2 months. Now approaches the season of office vacations and buying trips (this year by the way will cover all Northern States from North Dakota, west to Oregon, then on to British Columbia and east back to Winnipeg by way of Jasper, Edmonton, Saskatoon and Yorkton. Anyone with philatelic properties for sale, especially worth \$10,000 and up is most welcome to write in. Will call if time permits).

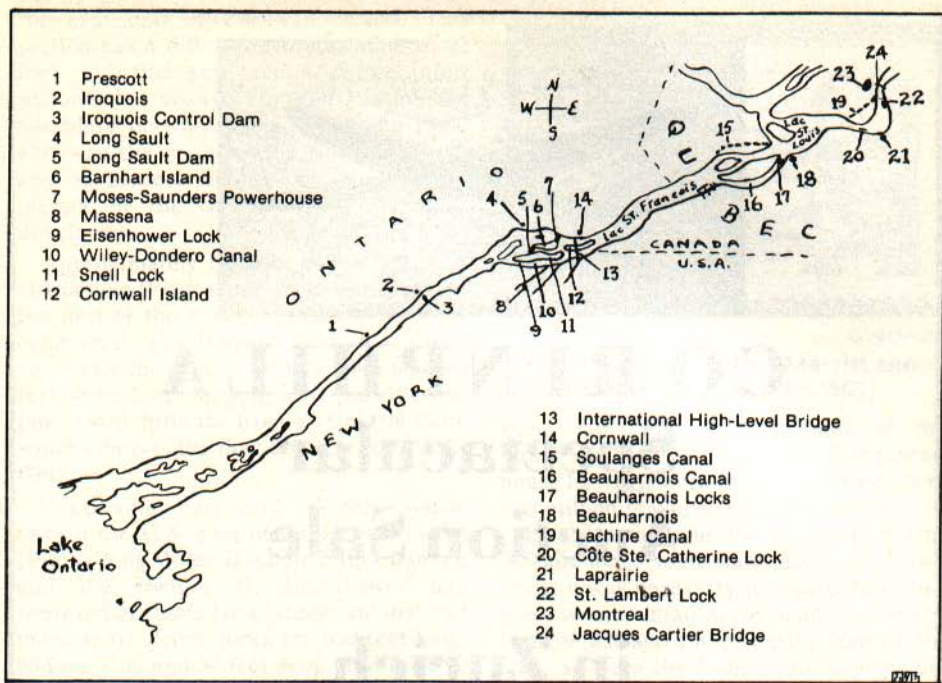

At any rate, it is obvious I'm going to be spread very thin so for the next few months please be patient if replies are far from prompt. Your incoming letters are quite safe in case of absence; held by the Post Office in either Winnipeg, Manitoba or Pembina, North Dakota until picked up.

Orders either to:

**St. Lawrence River portion of the Seaway, L. Ontario to Montreal.**

the 19th century, which was the period during which the first 9 foot canal system was completed, but the first attempt to improve the river system was actually made in 1700 when a by-pass of the Lachine Rapids was initiated by Dollier de Casson, Superior of the Sulpicion Seminary. By 1895 both countries realized the need of a deep-water channel from the Great Lakes to the Atlantic Ocean and they appointed a joint commission (the first of several over six decades) to study and advise on constructing such a channel, and, when the Boundary Waters Treaty was entered into in 1909, an International Commission was made part of the treaty. But throughout the ensuing years the U.S. Congress repeatedly refused to approve the St. Lawrence Seaway and Power Project. Finally, in 1951, the Canadian Government adopted plans to start construction on an unilateral basis. This idea of an All-Canadian Seaway stirred the U.S. into action, and in May 1954 the United

States Congress passed legislation authorizing the U.S. to join Canada in carrying out the project, and finally work commenced, at several points on the river, in the autumn of 1954.

The western end of the Seaway begins at the Lake Erie entrance to the Welland Canal between Lakes Erie and Ontario. The canal, a by-pass of Niagara Falls, was originally built by Wm. Hamilton Merritt (Fig. 3) and opened in 1829. It has eight locks, 800' by 80' by 30', two of which are twin locks, with a total lift of 326 feet.

Leaving the canal and crossing Lake Ontario the Seaway enters the St. Lawrence River. The next 68 miles is referred to as the Thousand Islands Section, and here scattered rock shoals were removed and extensive dredging was carried out to deepen the channels to the 27 foot minimum.

Adjacent to the Thousand Islands Section is the International Section covering 44 miles, from just east of Prescott, Ont., to

**Bahnhofstrasse 102 P.O.B.**

the east end of Cornwall Island. This section has a difference in elevation of 92 feet. It is the key section of the International Waterway. Through it runs the boundary between Canada and the U.S., and was the main reason for negotiation and agreement before the great power project of the St. Lawrence could be developed.

Approximately 10 miles below Prescott, at Iroquois Point, is the most westerly and the first of the seven Seaway locks to be completed. The Iroquois Lock is a single one, since the drop in water level is only six feet. It enables shipping to by-pass the first power structure, the Iroquois Control Dam, which controls the flow of water from Lake Ontario.

Continuing east and slightly south, toward the U.S. part of the river, lies the 10-mile-long Wiley-Dondero Ship Channel, and the Dwight D. Eisenhower and Bertrand H. Snell Locks three and one half miles apart. These locks are 860 feet long, 80 feet wide and 30 feet deep, and raise or lower vessels 45 feet each. Beneath the Eisenhower Lock is a tunnel which conveys traffic to Barnhart Island where the powerhouse is situated.

The Snell Lock was named in honour of Congressman Snell, of New York, who introduced the first bill. The canal was named in honour of Senator Alexander Wiley and Congressman George Dondero, who wrote the final bill and succeeded in getting it passed by Congress. These locks and canal enable shipping to by-pass the Long Sault Spillway Dam and the powerhouse which is also a dam.

The Spillway Dam is located entirely within U.S. territory crossing the south channel of the St. Lawrence. It controls the amount of water in the power pool and also releases the proper amount for the river below.

The power dam spans the north channel of the St. Lawrence and consists of the powerhouse which bears two names: the Canadian section, the Robert H. Saunders-St. Lawrence Generating Station, honouring the late Mr. Saunders who had worked for years on the power project; and the American section, the Robert Moses Power

Guelphoto

**Fig. 3. Wm. Hamilton Merritt and the Welland Canal [Sc. 655].**

Dam, honouring the Chairman of the Power Authority of New York. The powerhouse has 32 generators and produces over two million horsepower of electricity.

In order to build the power pool (the 30-mile-long, man-made Lake St. Lawrence) it was necessary to expropriate land, move towns, villages, roads and highways. In all 38,000 acres were buried beneath the lake, as were the Long Sault Rapids. Before construction of the giant power project began huge cofferdams were built to turn or hold the mighty river and just below the powerhouse site the largest cofferdam in the world was constructed.

Two miles downstream from the Snell Lock, connecting Cornwall, Ontario, and Massena, New York, is the new International High-Level Suspension Bridge, providing highway access between the two cities. The main suspension of the bridge is 3,840 feet long and is carried on two 232 foot high towers, and it has the 120 foot clearance required for ships on the Seaway. Canada built the substructure and the United States, the superstructure, with the costs being shared according to the actual lengths of bridge in each country. The two countries jointly own and operate the bridge.

Cornwall is the home of the St. Lawrence Seaway Authority of Canada, and Massena is the headquarters of the U.S. Agency, the St. Lawrence Seaway Development Corp.

The beautiful and quiet Lake St. Francis lies downstream, and for twenty-nine miles ships proceed on an almost straight line to the 16 mile long Soulanges Section.

**It's Brand New and Timely . . . .**

**"THE POSTED LETTER IN COLONIAL  
AND REVOLUTIONARY AMERICA : 1628-1790"**

Clothbound - 656 (8½x11) Pages - Profusely Illustrated

Canadian philatelists and postal historians will find much of interest in this exciting new handbook dealing with the posted letter in both Colonial America and then the American Revolutionary period. Of special interest is the detailed chapter titled "The Posts in Canada to 1776". Many interesting Canadian covers are illustrated in Part II of this outstanding research work, written by a number of authors, each expounding a part of the 1628-1790 story, geographically covering a territory reaching from Quebec to Florida.

This newest handbook on the New World's philatelic literature scene was published by The American Philatelic Research Library, an educational affiliate of The American Philatelic Society.

RESEARCH LIBRARY**

**P.O. Box 338, State College, Pa. 16801 USA**

Dredging of the lake channel was carried out to bring it to the regulation 27 foot depth. In the Soulanges Section the Seaway then passes through the Beauharnois Power Canal, and at the eastern end of the canal are two locks to bypass the Beauharnois Powerhouse and to get ships to the next stage of the river. Each lock raises or lowers 40 feet, and the down-river lock has a four lane highway tunnel beneath to insure uninterrupted vehicular traffic.

Continuing eastward is Lake St. Louis, approximately fourteen miles long by seven wide, and again extensive dredging was carried out to bring the lake channel to the 27-foot minimum. At the eastern end of the lake begins the Lachine Section. Here the Seaway leaves the river and enters the 18 mile long Laprairie New Navigational Channel which takes all Seaway traffic through to Montreal Harbour and the eastern end of the Seaway. The point of exit from the lake is opposite the entrance to the old Lachine Canal. For the next two miles an overland channel has been provided to bypass the Lachine Rapids, along the south side rather than north of the rapids, before entering the last two locks, the Côte Ste. Catherine and St. Lambert Locks.

Both these locks have the same general dimensions of all the Seaway locks, i.e. 800 feet by 80 feet by 30 feet. The Côte Ste. Catherine Lock raises or lowers vessels 30 feet, and the St. Lambert, the most easterly of the Seaway Locks, the final 25 feet.

Spanning this section of the Seaway are five bridges: the Canadian Pacific Railway, the Honore Mercier, the Champlain, the Victoria (owned by the Canadian National), and the Jacques Cartier. All but the Champlain (completed in 1961) were already standing and sound, so that alteration only, rather than total rebuilding was necessary. New sections were built on the south end of each bridge with vertical lifts and new approaches.

Modification to the Jacques Cartier Bridge was a spectacular project in itself, especially as it was carried out with very little interruption of the existing traffic,

which was a continuous flow into and out of the heart of the City of Montreal.

About 1,000 feet from the Jacques Cartier Bridge the Seaway ends, and from this point vessels continue on down the St. Lawrence, and the final 1,000 miles to the Atlantic Ocean through a natural deep-water channel.

Before completion in a little over 4½ years and an expenditure of over a billion dollars, peak employment had reached the 22,000 count, and construction entailed moving over 210,000,00 cubic yards of earth, pouring over 6,000,000 cubic yards of concrete, building 45 miles of dikes and digging 69 miles of channel. It also involved relocating 47 miles of highway, 40 miles of double-track railroad and 650 families.

Guelphoto

**Fig. 4. Royal Visit Stamp [Sc. 386]**

On June 26, 1959 another historical event in the history of these two great nations took place when Her Majesty Queen Elizabeth II (Fig. 4) joined President Dwight D. Eisenhower in dedicating the newly opened Seaway, and the dream of a great waterway linking all parts of the world with the heart of the North American continent became a reality.

To commemorate this magnificent undertaking both Canada and the U.S.

**RICHARD WOLFFERS, INC.** Stamps and Stamp Auctions

127 KEARNY ST., SAN FRANCISCO, CA 94108

simultaneously issued a stamp on June 26, 1959, of identical design except for the denomination and inscription. Canada's was a 5c. stamp (Fig. 1) and the U.S. issue was 4c. (Fig. 2).

The Canadian Bank Note Co. printed the stamp for Canada, in sheets of 200, panes of 50, perf 12, from one plate. The quantity issued was 40,110,000 with a limited number of 15,000 matched plate block sets. The imprint appeared in the top and bottom corners of each sheet.

The design was created by Messrs. A. L. Pollock and G. Trotter, of Canada, and W.

H. Buckley, A. J. Copeland and E. Metz, of the U.S.A.

Almost as incredible as the Seaway itself was the variety of this stamp which appeared shortly after release, with the centre inverted. Of the 400 stamps (8 panes) believed to have been printed in error, about 250 have been accounted for. Additional varieties are: doubling in the word 'CANADA'; missing 'CAN'; and the missing 'Da'. The 'hidden date' can be located in the lower portion of Lake Erie just above the 'NA' of Canada.

### GIBBONS TO HOLD OVERSEAS EXHIBITIONS

Stanley Gibbons, the oldest and largest firm of international stamp dealers, have decided to hold a series of their own exhibitions throughout the world.

The first of these international exhibitions will be held in 1977, the year of the Queen's 25th Anniversary of Accession.

As part of the Royal Visits and celebrations during the Anniversary year, the Queen will be visiting Australasia and

the first Stanley Gibbons International Exhibition will be held in Melbourne and Sydney in March 1977, to commence during the Queen's proposed visit to Australia.

The exhibition will consist of selected exhibits of international standard from well-known collectors and collections throughout the world as well as catering for local Australian interests.

## *Current is Easy*

But we're also into the difficult area of out-of-print titles: BNA, Commonwealth and other. There are books, catalogues, individual magazines like Maple Leaves, Canadian Philatelist, Topics and Popular Stamps. Sometimes whole volumes, and very old Canadian philatelic journals. Want lists are welcome. And if we haven't got what you need we'll keep the details on file until it turns up.

Though largely mail order we have a downtown premises for browsing. Phone first the look us up at 78 Berkeley Street, off Adelaide going east, Toronto.

FEATURE

## THE BEGINNINGS OF POSTAL SERVICE IN HASTINGS COUNTY - Part II, Conclusion

In reply to a questionnaire from a Legislative Commission inquiring into the Canadian Post Office in 1841, D. Cameron, Belleville's postmaster at that time, replied: "this Office is peculiarly situated. The mails both from the east and west arrive late in the evening. Regularly in the spring and fall, or at any season when the roads are bad, there are two arrivals and two departures during the night, now it would be almost impossible for one person to give the close attendance required in the Post Office during the day and do all the night work too. An assistant is almost indispensable."

### TRENTON

Trenton is situated on the Bay of Quinte at the mouth of the Trent River and was originally part of Murray Township, Northumberland County, but was immediately adjacent to Sidney Township, in Hastings Co. When it was incorporated in 1853, it joined the latter county.

The first permanent settler of Port Trent, as Trenton was originally designated, was a United Empire Loyalist, James Smith. He erected a log house on the west bank of the river in 1790. Henry Ripson bought the Smith property and built the first grist mill on the river. Ripson's property was bought in turn by Adam Henry Myers in 1808. Myers had come to Canada in 1805 from Bremen, Hanover.

In 1817 Sheldon Hawley settled at Port Trent on the east side of the river, and engaged in mercantile pursuits. When River Trent post office was established there in 1826, he became the postmaster. The son and namesake of Adam Henry Myers, and William Robertson were also pioneer merchants. Robertson became

postmaster of River Trent in 1832.

A letter from Adam Myers to R. A. Tucker, Kingston, dated 16 December 1842, is postmarked with a small double circle broken by RIVER TRENT, with "17th Decr" in manuscript. Another letter from Myers, dated 11 July 1848, has a slightly larger double circle broken by RIVER TRENT, with JY 15, 1848 set in thin type.

With the incorporation of the village and its change of name in 1853, its post office also became Trenton.

### MARMORA

In the early 1800's, Marmora was a small settlement of nine log houses. When surveyors began to work in the area, they reported finding indications of iron ore. Charles Hayes, of the Iron Works at King's Dock Yards, in England, came to Canada and in 1820 he asked the legislature for permission to open a road from the site of Stirling to Marmora and to establish an iron works at nearby Crowe Lake. By the beginning of 1821, a 15 mile road had been opened. Later that year, he reported that he had a "vast number of men working on the Iron Works."

The iron works were built on the east bank of Crowe River. A group of buildings appeared including commercial structures, and Marmora Iron Works post office was opened in 1822 with Charles Hayes as postmaster. It was the first post office inland from Lake Ontario throughout the many miles between Perth and Newmarket. In 1825 Anthony Manahan was appointed manager of the works and shortly thereafter, he became the postmaster.

On a letter from Hayes to Surveyor-

# *Vincent Graves Greene Philatelic Research Foundation*

The Foundation is pleased to announce that it has formed a committee for the expertization of BNA material. The committee will, of course, be free to and intends to consult outside experts and consultants. An advisory body has been formed which consists of Messrs. J. N. Sissons, W. H. P. Maresch and A. W. Leggett.

It is anticipated that items can be dealt with within 6 to 8 weeks of the receipt of the same by the Foundation.

For details and submission forms write:

First Canadian Place  
Toronto, Ontario M5X 1B2**

---

General Ridout, dated 27 February 1823, the only marking is "Free", written in red. A letter of 7 March has the amount of postage written in the upper right, in the lower left are his initials and the date joined by a bracket, but no indication of the name of the post office.

Marmora Iron Works post office closed temporarily in 1828. When it reopened in 1830 it was known simply as Marmora. Its Postmaster in 1841, James Fidler, wrote to the Post Office Commission of the Legislature that his "salary or commission for the year ending the 5th July last, from the General Post Office at Quebec, comes to 15s. 10d., and for commission on United States postage, in account with the Post Offices at Queenston and Kingston, 2s." However, a more lucrative side to his post was his "franking privilege, with regard to newspapers and letters sent and received, worth £10 per annum."

Settlement of Rawdon Township, which lies between Sidney and Marmora Townships, began about 1820 along its southern border in the vicinity of Stirling. Another Fidler, Ed., opened Rawdon post office in 1832. It became Rawdon West in 1851, and Stirling the next year. It is not surprising that its postmaster, then W. Judd, who would be interested in improving communications, was listed by the Canada Directory as being the Secretary of the Sidney, Rawdon and Victoria Road Company. It noted that "this road will extend 12 miles to meet the Plank Road from Belleville, and will be completed within the present year (1851)."

### SHANNONVILLE

Joseph Brant, or Thayendanegea, in 1793 selected two tracts of land for his people, the Iroquois. This land was to be given to them by the government for their assistance in the Revolutionary War. One tract was on the Grand River, the other was on the shores of the Bay of Quinte, immediately east of Thurlow Township. That portion of the tribe which settled on the Bay of Quinte reservation was led by Brant's cousin, Captain John Deserontou. In 1819 they surrendered the first four concessions north of what is now Highway 2; in 1840 they surrendered the remaining

northern portion. The land they gave up became Tyendinga Township.

In the letter of Belleville postmaster Thomas Parker mentioned above, dated December 5, 1822, he wrote: "I received a letter from Major Wilmot requesting me to attend the sale of crown lands at Shannonville on Monday the 16th inst." Shannonville is on the Salmon River just within the Indian Reservation. The village and mill site had been leased from the Indians in 1819, to build the first mill in the township. In that year of 1833, Shannonville post office was opened. The name was derived from the Ports who had come from the vicinity of Shannon, Ireland.

John H. Blacker became postmaster of Shannonville in 1835. A letter from him to Peter Robinson, sent April 20, 1836, is postmarked with a large double circle enclosing SHANNONVILLE, U.C., with the date written in.

### MADOC

The settlement of Madoc Township, the area east of Marmora Township, began about 1830. Donald McKenzie built a grist and saw mill and opened a store, the first in the township, on Deer Creek, a tributary of the Moira River. These provided the nucleus of a village. The Madoc post office opened in 1836 and S. McKenzie became the second postmaster in 1838. To the Legislature's Post Office Commission, on February 18, 1841, he divulged:

"The amount of my emolument for the year ending the 5th July last, was £1 17s. 10d. derived from the commission on Postages usually allowed and from no other source. Owing to the situation I hold, as clerk to D. McKenzie, Esq., I have no Office rent to pay, but as I have occasion to be absent a good deal, the Post Office duty devolves upon an assistant, whose pay amounts to more than all the emoluments I ever received from the Office."

Sidney Township, like Thurlow Twp. was first surveyed in 1787 and lies immediately west of the latter. About 1837 Abel Scott built a mill at the site of Frankford, on the Trent River, and the place was known for many years as Scott's Mills and sometimes as Cole Creek, after the tributary of the Trent on which the mills were located.

However, Lieutenant-Governor Sir Francis Bond Head visited Scott's Mills that year and the place was named Frankford officially, based on a variation of his first name. In 1838 Frankford post office came into being.

The township immediately north of Thurlow, called Huntingdon, was first settled about 1817. Philip Luke settled in the neighbourhood of Moira. Moira post office appeared in 1841 on the lake of the same name. Four years later, Luke became the postmaster of the West Huntingdon post office, newly opened at the corner of the 3rd concession road and the 2nd sideroad (the Huntingdon Macadamized Road).

Hungerford Twp., the next township east of Huntingdon, had its earliest settlement in 1816, on Sugar Island which lies on the south side of Stoco Lake. Hungerford post office was established in 1846 on the northwest corner of the lake. It was renamed Tweed in 1852.

The Melrose post office was opened in 1818 at the 3rd concession road and 15th sideroad of Tyendinaga Twp.

### DESERONTO

Mill Point, in the very southeast corner of Tyendinaga Twp., on the Bay of Quinte, received the impetus for its growth from the erection of large saw mills in 1849. Mill Point post office opened in 1851, with James Bowen as postmaster. From 1857 to 1859 the post office was actually called Bowen, then it reverted back to Mill Point. In 1881 the Indian captain who led the Iroquois in that area was remembered when the name was changed to Deseronto. Until 1870 the postal guides listed it as being in Richmond Township, Lennox and Addington County, although it only touches that municipality on its eastern edge.

Marysville post office was established in 1851 at the intersection of what is now Highway 2 and the 30th sideroad of Tyendinaga.

Foxboro, formerly Smithville, on the Moira River, was founded by William Ashley who purchased lot 2, concession 5 of Thurlow Twp., in 1824. In 1835 he began to manufacture wagons. He became postmaster when Smithville post office was

opened in 1851. As there was also a Smithville in the Niagara Peninsula, there must have been considerable confusion. This was eliminated by changing the name of the Hastings Co., village to Foxboro, 10 years later.

Lonsdale came into existence in 1851 in Tyendinaga on the Salmon River, on lot 32, south of the 4th concession. At the intersection of the Macadamized Road (2nd sideroad) and the 7th concession road, the St. George, Hastings Co., post office opened also in 1851. There would be confusion between this post office and that of the same name in Brant County. In 1857 the Hastings County St. George post office became known as Ivanhoe.

A half a mile from the southeast corner of Stoco Lake in Hungerford Twp., Stoco post office was opened in 1851. A letter sent by Wm. R. Rombough of Hungerford, on February 19, 1852, to the Crown Lands Commissioner, Quebec, bears the postmark STOCO, U.C., FEB. 19 1852 printed by hand, with a rectangle drawn around it. Apparently M. McCoy had not yet received a hammer for the new establishment.

The year that Canada took over the management of its Post Office was 1851. It saw the start of a great expansion in the number of post offices and the period of postal beginnings can be said to end at that time.

## ANDRÉ BISAILLON:

*Assistant Editeur de langue français*  
*Assistant Editor for French language*

**Note biographique**

Né à Montréal, André Bisaillon a fait ses études en Médecine vétérinaire à l'Université de Montréal. Après l'obtention de son D.V.M. en 1969 il poursuit ses études pour obtenir en 1972 une Maîtrise es Sciences vétérinaires. Après un séjour de deux ans à l'Université de la Saskatchewan, il revint à Saint-Hyacinthe en 1973. Célibataire, André est actuellement professeur adjoint en anatomie et embryologie vétérinaire à la Faculté de Médecine vétérinaire de l'Université de Montréal.

André collectionne le matériel philatélique canadien et tout particulièrement les timbres neufs avec les variétés de papiers et les erreurs. Il s'adonne également à la collection des jours d'émission et des carnets de timbres.

**Biographical note**

Born in Montreal, André Bisaillon studied Veterinary Medicine at the Université de Montréal. After receiving his D.V.M. degree in 1969, he pursued his studies for the degree of Master in Veterinary Sciences which he obtained in 1972. After two years at the University of Saskatchewan, he came back to Saint-Hya-

cinthe in 1973. Bachelor, André is assistant professor in Veterinary anatomy and embryology at the Faculté de Médecine vétérinaire de l'Université de Montréal.

The collecting interests of André are the Canadian stamps, in particular mint stamps, paper varieties and errors. He collects also first day of issues and booklets.

... HANS REICHE

A  
REGULAR  
FEATURE

The Canadian Stamp News must be congratulated for its fine issues and coverage of Canadian news. With the demise of Popular Stamps many years ago (In 1958, Ed.) no Canadian philatelic paper has existed with the exception of a few club papers. There is a definite need for such a Canadian publication and with all the well known help this new paper receives, we hope it will be a successful venture.

\* \* \* \* \*

A number of writers have been asking if it is still necessary to deface an accurate reproduction of a Canadian stamp. All publications from the post office advertising new stamps and their sales material have the reproductions defaced. The recent importation from Germany of a small brochure depicting recent Canadian stamps in full size and colour was held back by the Customs Service. Reproductions which are reduced or enlarged or not in the exact colours apparently are readily acceptable. A postal regulation issued by the PMG outlines the regulations for stamp reproductions. Illustrations in full natural colour and natural size must be defaced. If the size of the reproduction is increased or decreased in size by at least 50%, it does not need defacement. Unfortunately many publishers are unaware of this regulation and sometimes find themselves in difficulties because of it.

\* \* \* \* \*

The 15c. Sc. 594 is an interesting item. Plate 1 with the light blue background and perforated 12 x 12 exists with a small crack on the right side of the design of stamp 10. The crack is just above the word Canada. Suddenly a dark blue shade appeared which looks like the new plate 2, but it is still perforated 12 x 12 and still has the crack. no plate number can be given for this one as the stamps come from field stock only. Then the new plate 2 appeared, perforated 13.2 x 13.2, in dark blue but

without the crack. The question here is why does the second issue, plate number unknown, still have the crack and why has plate 2, with the same dark blue lithographed portion of the plate, no crack? Was the negative retouched?

\* \* \* \* \*

The Post Office has been considering the introduction of a two and a five dollars booklets. These would fill the gap between the 25c. booklet and a complete sheet or roll of stamps. Booklets of similar values have existed for many years in some European countries and recently the U.S.A. has issued a number of higher value booklets.

\* \* \* \* \*

While scanning some recent philatelic literature and auction lists we noticed some rather peculiar descriptions which are intriguing, to say the least; e.g., attractively centered (whatever that means).

fresh, postoffice condition, regummed (we did not know that the post office regums stamps)

joint bar (maybe a paste up?)

Provincial stamp (what is meant here is a provisional stamp)

lively copy (shoot before collecting?)

50c. Bluenose with bottom margin all perforated (?)

transparent smudge cancellation, rare (rare for the round file)

valuable home made copy of 5c.

Beaver (any others?)

\* \* \* \* \*

A large number of stamps in less than perfect condition are being sold through auctions. One auction house in the USA concentrates on such material and it is amazing what prices are realized for these stamps. For example, a 4 Dollar Jubilee used with a thin and slightly creased brought \$195. The 3d. on laid paper, cut into on all sides fetched \$156. Similar prices

were obtained for others including many high value US stamps. Of course, it is up to an individual collector to decide how much he is willing to pay, but somehow we have the impression that some simply like to fill a space in their album regardless of quality and, apparently, of the price. There are few buyers of equipment such as cars who do not ask themselves before a purchase what is it worth over a certain period of its life. Maybe some of these collectors should ask that same question when buying stamps.

\* \* \* \* \*

Of interest is a recent announcement by a German auction firm that it sells different kinds of original production gums for stamps. One such bottle brought about \$50. Methods of applying the gum to ungummed stamps for repair are common in Europe (maybe even here?). With the help of such original material and the existing complex vapour deposit systems, stamps can be regummed or repaired so that they are almost impossible to detect. We have seen some of the Bluenose and Parliament stamps which came from Europe and no magnifying glass or UV light could detect the regumming. The edges of the perforations which normally show some signs of regumming did not in these cases. We hope dealers have some way of detecting such repairs in order to protect their customers and themselves.

The hoarding of large quantities of modern Canadian sheets does not pay off in the long run. One collector bought about \$120,000 worth of the G overprinted 20c. stamps. When he attempted to sell them, a few dealers were interested in buying one or two sheets each from him but not the lot. He finally sold the lot for far below face value and it may take years for the dealer who bought it to get rid of the lot.

\* \* \* \* \*

One does not have to buy 1000 complete rolls of the recent 8c. coil stamp in order to find imperforate pairs, but one dealer did just that. He found none. He will certainly have a lot of postage stamps for a long time. But the same dealer received some compensation when he found a strip of four of these imperforate coil stamps in an ordinary mission mixture. Probably very few genuine used strips exist.

**RECENT** purchases have boosted stocks above needs on these items

## THE FERGUSONS'

Postage Stamp Auctions by mail are our only business. Since 1965 we have held 119 auctions and are the only Canadian House maintaining strictly mail auctions — no retail. Our sales average 800 to 1,000 lots with a price range from \$20.00 to \$1,000.00 as a rule. However, fairly often there are complete sets or individual items that are less expensive. In every case we try to describe each lot most accurately so that you, the bidder, may visualize what you are hoping to buy. If we err on a description you can always get your money refunded if we cannot effect a replacement.

If you have not seen our illustrated catalogues it will only cost you the postage to get one or two — why not give us a try? Material for auction must catalogue at least \$500.00, and be in our hands at least four months prior to the auction date.

# THE ADMIRALS

## ONE OF CANADA'S GREATEST

by Harry W. Lussey

### Part Three The 3c. and 4c. values

the 3c. brown (fig. 1) was issued to combine the 12c. postage and the 1c. war tax in a single stamp and eliminated the war tax issue. Plate material, in my experience, is somewhat difficult to obtain but there is little to be said about the stamp itself. It is found both in both Wet and Dry printings and is the pale brown shade. The lathe work specimens include type "B" normal and inverted, type "C" and type "D" Wet normal and inverted and "D" Dry normal. The perf 12 vertical coil is most elusive as a single on commercial covers used within even ten years of the reported date of issue in 1921. I am still looking!

The 3c. red made its appearance in 1923 when the basic letter rate changed from 2c. to 3c. The reason for the recent upsurge in the popularity of the Admirals is alluded to in Marler's book. He stated, in 1949, that the 3c. red was still on sale in Ottawa. Dealers shunned the Admirals all through the 30's and 40's because of the Ottawa stocks. When these were finally exhausted professional holdings were minimal. With the 3c. red we have the same coil sheet varieties and imperfs that were described for the 1c. yellow and 2c. green. The 3c. imperf. has been used to fake the coil sheet rarity but it should not fool one familiar with the issue. Fig. 2 shows a genuine imperf x 8 on cover. Of the six plates used to produce the imperfs, #126 through #128 have the imprint at the bottom above the lathe work. The top margin of the upper panes is blank although ink smudges across the top have led some to assume it is

—Philatelic Photographic Service

**Fig. 1. 3c. Brown**

a form of lathe work. Plates #129-131 were back door items. They have the imprint at the top and the shade differs from that of plates #126-128. No lathe work was entered on these plates.

In 1931 a shortage of 3c. stamps developed when the letter rate was increased from 2c. to 3c. Surplus uncut coil sheets of the 3c. Admiral were perforated 12 horizontally as a provisional sheet stamp late in June 1931. Covers with the 12 x 8 provisional dated in that period, are scarce. The remaining supply of the regular 3c.

Will Gandley

PUBLISHED & MANUFACTURED  
by

Canadian Wholesale Supply

## DESIGN FEATURES

1. Die cut and heat sealed. (No glue to let go.)
2. Stamps can be viewed both front and back, held up to the light to see thins or damage, without touching or removing the stamp.
3. Vertical slits go all the way to the top of the pocket, so that taller stamps can be tucked under.
4. Die cut pockets are designed so that if an album or sheet is dropped, the stamps won't fall out.
5. Illustrations are placed in rotation of issue, except to assemble sets.
6. Dates throughout show when sets are assembled, and the period of years over which these stamps were issued.
7. Variety collectors can use this album. Although no varieties are illustrated, much room has been left unillustrated for varieties and spares. For extensive varieties collections extra sheets can be added.
8. For those who wish to collect singles, blocks and covers in the same album, three and four pocket sheets may be added between. We have left page numbers off for this purpose.
9. This album has been produced with specific goals in view;
  - (a) To create an album for all.
  - (b) To create an expensive looking album.
  - (c) To create it at a low cost.
10. This album is the result of many years of planning. There is much that could be made different but much of it would cause us to lose sight of the goals specified above.

WE HOPE YOU LIKE IT. IF SO WATCH FOR THE SERIES OF COUNTRY ALBUMS TO FOLLOW.

**Fig. 2. Cover with imperf x 8 block**

Admiral sheet stamps was also drawn on until the 3c. value of the scroll issue became available. Thus this stamp had two periods in which it prepaid the letter rate - from late 1923 to 1926 and again in 1931.

The 1926 horrors also involve this stamp. When the letter rate dropped to 2c. on July 1, 1926 the remainders of the 3c. carmine were scheduled for overprinting 2c. However, handling gummed and perforated sheets on a press proved impractical. Essays of the overprint are known in orange and black, in both sizes of type (Fig. 3) and on both Die I and Die II stamps. A vertical pair of the essay used on a registered cover is in my collection (Fig. 4). The double surcharge, various misplaced overprints and blocks showing the upper pair without overprint are found. The two line items include the double and triple surcharges as well as a block of four with the upper pair showing the surcharge double with one inverted. "Imitations" have been marketed.

The 4c. bistre was the result of the postal rate changes of October 1921. It became available in mid-1922 and paid the rate to

to a so-called golden yellow on the early wet printings. The work "D" normal and inverted exist. This is the lowest denomination of the eight values, 4c., 5c. violet, 7c. brown, 8c., 10c. brown 20c., 50c. and \$1.00 which exist in imperforate form. While it is reported that 200 copies of each value exist the infrequency with which they appear in auctions indicates only 100 of

each value. The "Georgian Stamps of Canada" published in 1936 by the Capital Stamp and Stationery Co. of Ottawa reports "one sheet of 100 is known". The export of a bottom or right margin copy of any denomination would disprove this since the only corner blocks known are upper ones.

To be Continued

When building your  
stamp collection. . .  
go to the source.

For those great rarities, and those not so great rarities, you have to find a source where the material is available at going market prices. A source where over 45,000 lots are sold for over \$7,000,000 every year.

Be it United States, British Commonwealth, Europe, Africa, Asia, South America, or whatever . . . .

The H. R. HARMER Organization is the source!

Guelphoto

Fig. 1. Albanian candidate for the "most ridiculous design".

In my search for superlative stamps of different categories, I think I have discovered a good candidate for the most ridiculous design. It is the 60q of the 1966 Albania doggy set, one of the thousands of meaningless stamps churned out nowadays with an eye to the topical collector.

This particular stamp has moved from the realm of the merely banal to that of the sublimely ridiculous. Consider noble Fido who has treed the villian (Fig. 1). When I first saw this stamp, I actually laughed out loud, the only time a design has ever so moved me. Then I bought the stamp, so perhaps the Albanian joke is on me.

The recent set of British stamps commemorating nineteenth century social reformers has not been well received by the general public and the philatelic press. Apparently the designer failed in his attempt to communicate his message by the use of hands trapped in various unhappy situations. This theme is not immediately apparent and the sombre colours are not conventionally pretty.

In regard to single stamps, I would tend to agree with the common opinion, but the multiples are integrated in a clever fashion. This is perhaps most noticable on the 10p stamp which shows a child's hands

Guelphoto

Fig. 2. - One of Britain's Social Reformer stamps. Compare with fig. 3.

# SERVICE

Daily we receive many enquiries concerning our services to collectors. We hope to answer several of our most frequently asked questions below.

1. We fill world wide want lists using Scott numbers but have our best depth in the British Commonwealth areas.
2. We specialize in B.N.A. stamps, covers and stationery but do **Not** publish a price list. We use the Canada Specialized Catalogue as our list with some modifications.
3. We have depth in most areas, like Admirals, Jubilees and the 1967 Definitives. We attempt to keep abreast with current varieties as well.
4. Periodically, we issue a circular known as our "GM" to any who request to be on our mailing list. Here we list special offers and varieties we believe to be of interest to most collectors.
5. We offer a world-wide new issue service at competitive rates.
6. Although we do not conduct auctions ourselves, we usually have an agent on the floor at the better sales in the Toronto area and act as consultants for buying, selling or appraising philatelic properties.
7. We are exclusive Canadian reps for Robson Lowe Ltd., one of the world's leading auctioneers. In addition to accepting subscription services for auction catalogues, we carry a large stock of their philatelic reference books.
8. In recent years, philatelic books have become an essential part of the serious collector's reference library. Our circulars list many of these and we promptly ship out orders.
9. In order to sell, we must buy. All **Better** philatelic properties are required and our comprehensive services are an advantage to the seller.

If we can be of service in any area, we would like to hear from you.

Sole Canadian Agent for Robson Lowe Limited - London, England

Guelphoto

**Fig. 3. Multiple of the Social Reformer stamp shown in figure 2.**

surrounded by the belts and pulleys of an old fashioned textile mill.

Single stamps of this design (Fig. 2) are unusual looking but are not particularly effective. However, in multiples (fig. 3) the idea comes to life, and the little hands, lost in the maze of machinery, are pathetic and touching. Note also how brilliantly the complicated patterns of the single stamps tie together to make an overall pattern on the sheet.

However, since stamps are normally collected and used singly, the experiment cannot be considered a complete success. Nonetheless, the British Post Office should be commended for trying something a little different. There are far too many safe but dull designs about.

The Belgian postal museum in Brussels should be on the agenda of every philatelist who visits that city. It is located in a quiet part of town not too far from the glorious central square in an elegant old building.

Stamps and postal history material are professionally displayed in beautiful cases, and the entire museum is luxuriously carpeted. All in all, the impression is that this museum is worthy of its setting in prosperous, elegant Brussels.

As one would expect, the stamps and postal history of Belgium and the former Belgian colonies have the most display area. In one room there is a complete collection of Belgium mint, and there is a 'dynasty room' where all the Belgium stamps depicting the royal family are shown.

One of the cases that fascinated me contained a collection of telegraph equipment and hexagonal telegraph stamps, including proofs, specimens, cancellations and covers. This is typical of the degree of specialization in the museum — very impressive and delightful.

Other highlights are original printing plates, cancelling devices, essays, proofs, artists' drawings — in short, all the

Canada Post  
Postes Canada

# Canada Post Olympic Souvenirs

you can still give someone special  
a piece of history - **for as little as \$2**

The 1976 Summer Olympic Games will soon be a part of history. And with their passing will also go most of the opportunities of acquiring official mementos of this historic event. But it's not too late yet!

Canada Post has three exciting official Olympic Stamp Souvenirs

that can be enjoyed, appreciated and ultimately treasured as keepsakes by just about everyone. For as little as \$2 they make it easy for you to give a piece of history to all the special people in your life. And they're all available right now through your neighbourhood post office.

## \$2 - The New Olympic Stamp Poster No. 2

This beautiful full size 24" x 36" poster, suitable for framing, captures the pageantry and excitement of the Flame Ceremony, the Opening Ceremony, and the Victory Ceremony. It also features in actual size and full colour all 35 stamps issued by Canada Post to commemorate the XXI Olympiad.

## \$6 - The Olympic Stamp Souvenir Case

A unique combination of beauty and utility, this Olympic Stamp Souvenir case contains a special collection of 12 Olympic Stamps (face value \$5), permanently mounted under clear plastic on both the inside and outside of the case's lid. The Official Seal is strikingly portrayed in gold against a woodgrain background on the front of the sturdy, high-impact plastic case. Inside are three compartments to hold various stationery items. A specially designed water reservoir for moist stamps and envelopes with a flick of the finger is part of the case's top edge. Ideal for the office or home, for executives, housewives, or children, it is sure to be used and appreciated for years.

## \$7.50 - The New Olympic Stamp Souvenir Collection Volume II

Beautifully illustrated with full-colour photographs, this Souvenir Collection tells the exciting story of the 1976 Olympics - complete with the history of the Olympic flame, an explanation of Olympic protocol, a schedule of the events, and an illustrated tour of the host city.

It contains all 14 Olympic Stamps, complete with see-through mounts, issued by Canada Post between July 1975 and July 1976 - a collection with a total face value alone of \$5.43. The album itself is exquisitely bound in an elegant combination of plush velour and leather-look vinyl, and comes in an attractive matching slip case.

## Also available - Olympic Stamp Souvenir Collection Volume I

the matching and companion volume to Collection Volume II containing all 21 Olympic stamps issued between September 1973 and June 1975 (face value \$5.72).

Also beautifully illustrated, it tells the fascinating story of Olympics from the ancient Greek Games to those of modern times.

Together, these two volumes, at \$7.50 each, contain all 35 stamps issued by Canada Post to commemorate the 1976 Olympic Games.

collateral material one would hope to see in a national postal museum. The postal stationery collection was particularly good, with the first postcard of the country (1871) plated and a study of retouched dies of nineteenth century postcards.

Brussels is the most expensive place I have ever seen — a glass of mineral water costs the equivalent of 90 cents. But admission to the Postal Museum is free, just about the only free thing I came across in Brussels. If I ever return to that city, I intend to pay another visit to the museum. Also worth another look are the many stamp shops on the rue du Midi which are especially good for the stamps of Franco-phone countries.

#### CAPEX 78

INTERPHIL 76 was large, and CAPEX 78, Canada's second international stamp exhibition will be as large, if not larger. In any event it will be the largest and most important stamp exhibition ever held in Canada.

It is being organized by the Toronto Association of Philatelic Exhibitions under the sponsorship of the R.P.S.C. and the patronage of the Federation Internationale de Philatelie (F.I.P.).

Among its 2500, 16 page frames will be a 500 frame Postal History class that will be judged separately.

A brochure outlining the exhibition was included in the last issue of the Canadian Philatelist. Additional copies may be obtained by writing to: CAPEX 78, P.O. Box 204, Station Q, Toronto, Ont. Canada, M4T 2M1.

Canada  
PostPostes  
Canada**NEWS****1976 STAMP PROGRAMME REVISED**

The remainder of the 1976 stamp programme has been revised because of the increases in domestic postal rates.

A new 10 cents definitive stamp will be issued on Sept. 1. Its addition to the 1976 list will be offset by the deletion of the 6 cents stamp from the planned four stamp Christmas set.

The final portion of the 1976 programme is:

Sept. 1 - 10c. definitive.

Sept. 17. - 4 - 10c. Iroquoian Indians, the last of the native peoples series.

Nov. 3. - 8c., 10c., 20c., Christmas stamps depicting stained glass windows.

Nov. 19. - 4 - 10c. Inland Vessels in the Canadian ships series.

The total number of stamps remains at 31 with a total face value of \$7.28.

**RECIPE FOR A STAMP**

The domestic postal rates have been raised from 8c. to 10c. effective September 1, 1976. Obviously a new small size definitive stamp is required for this purpose. Does the CP have a new one designed? No. They have a simple recipe for producing one and therefore, do not have to wait for a new design to be prepared.

Take the current 8c. definitive with the line drawing of the Queen by David Annesley. Change the 8 to a 10 and change the colour from blue to .....? Would you believe it? The PS-14 describing the new stamp does not mention the colour but it does depict it in deep red.

Now wave the magic wand and Hey Presto! The CP has a new stamp. It will be produced by continuous printing from plate 1 by the British American Bank Note Co., and will be perf. 13.

**BOOKLETS**

Will the new domestic rates spell the end of the 25c. booklet and the introduction of a 50c. and /or a \$1.00 booklet(s)? Or will the 25c. booklet pane be changed to 2 x 10c. + 1 x 5c.? (A 50c. booklet - 4 x 10c., 4 x 2c., 2 x 1c., has been announced for Sept. 1st.)

**A REMINDER**

The 1976 Olympic Games Water Sports stamps, #B4-B6, will be withdrawn from philatelic counters and the Philatelic Service after August 6, 1976. After that date these stamps and earlier issues of 1975 will be available only in semi-annual packs of single stamps or annual Souvenir Collections of commemoratives or special issue stamps.

**ROYAL MILITARY COLLEGE  
CENTENARY [Sc.692-3]**

Further minor constant varieties have been reported, 1. Red flaw in sky (right of right tower, stamp #42); 2. horizontal black dash (left of right turret, stamp #?); 3. spot beside maple leaf in the flag and a horizontal red dash in the Memorial Arch above the right cadet, stamp #?). Information from D. J. Measures, Arnprior, and Geo. Wegg Circular GM-14.

**PUBLIC STAMP AUCTIONS  
OF****BRITISH NORTH AMERICA  
UNITED STATES, BRITISH  
COMMONWEALTH AND FOREIGN  
HELD 5-6 TIMES A YEAR**

Catalogues are available upon request or at \$5.00 yearly including prices realized if you are looking to sell. We offer: Competitive Commission Rates, Reasonable size lots and fast sale since our auctions are held quite often.

BY FRED STULBERG

## IN OLD CANADA

A  
REGULAR  
FEATURE

—Philatelic Photographic Service

## THE ROYAL VISIT OF 1901

The year was a monumental one in the history of the British Empire. It was that year Queen Victoria died and was succeeded by her son Edward VII. It was especially memorable for Canadians because the new monarch (who had himself visited Canada in 1860) sent his son and his wife - the Duke and Duchess of Cornwall and Kent - on the second royal visit to Canada. They arrived in Toronto in October.

Toronto marked the occasion by building a "Triumphal Arch" at Avenue Road and Bloor Street which was then the centre of one of Toronto's major residential areas. A press report states that "electric lights were used with great freedom by all merchants and the business section of the city was gay with flags and bunting." The welcome exceeded that given their father twenty-one years earlier.

However, the year 1901 was significant

for a reason other than the death of Queen Victoria and the Royal Visit and, in fact, gave validity to the name "Triumphal Arch". It was then that the acute phase of the Boer War in South Africa was over (although it took the British troops two years more to end hostilities) and Canadian troops were returning home. One of the camps from which the troops were demobilized was set up at Exhibition Park (now the Canadian National Exhibition) which, incidentally, also served as a troop camp during World War I and World War II.

Arrangements were made for the royal couple to review the troops on October 11. A special postal device was made to mark the event and many of those present mailed a souvenir of the occasion to relatives and friends with the postage portion cancelled by this commemorative marking.

Apparently the Army Post Office at

**If you think you can do without  
the new Harris Catalog, you  
probably don't realize that more  
than 6,000 US/BNA prices have  
changed since the last edition**

It's true! More than 6,000 US/BNA prices have undergone a dramatic increase since last year. Prices change with great rapidity in the stamp world and Harris keeps pace with those price changes by issuing its reference catalog twice annually. Now on sale is the 1976-1977 Harris US/BNA Catalog — a 218-page reference gem that authoritatively reflects today's stamp prices.

The Harris Catalog is the most accurate price guide to the mercurial US/BNA stamp market. It has to be correct. The prices in the Harris reference book are also the actual Harris mail order prices. If the very latest US/BNA prices and listings of recent issues are meaningful to you, the 1976-1977 Harris Catalog must be on your reference shelf.

There's much information crammed into the 1976-1977 Harris Catalog and yet it still costs far less than other catalogs. Not only is it inexpensive, it's also the most complete volume of its kind. It lists every stamp of the United States and its possessions, Canada and all its provinces, plus United Nations. (Rarities are not included). So even if you use the new Harris Catalog only to identify your stamps or evaluate your collection, it will probably be the wisest investment you've made this year.

Exhibition Park relied on the main Toronto Post Office to forward these mailings since almost all of them have additional postal markings from there. Official date of usage was October 11, 1901 but, a few strikes are known dated one day earlier. These are considered proof or favour markings.

The cover illustrated above is of special interest not only because it was (free) franked but also because there is a ten day lapse between the Exhibition Park Camp mark and that of the Assistant Postmaster of Toronto. Apparently the postmaster at Toronto had some of these souvenirs made for his own personal use and distributed them at his leisure to favoured people. In this case it was to Mrs. J. Knox Leslie, a prominent and pioneer resident in the eastern section of Toronto. Few of these official post office cachets have survived.

#### 410 SQUADRON "COUGARS" COVER

The third in the series of commemorative squadron covers has just been produced by 410 (All-Weather) Operational Training Squadron to mark the occasion of their 25th anniversary. The cover was flown in the unit's CF-101 "Voodoo" interceptor at supersonic speed (Mach 1.2) to an altitude of 50,000 feet and signed by the crew to attest to the achievement. The covers were then postmarked with a special cancellation provided by Canada Post, bearing the unit nickname "410 Cougars", with the ceremony date of June 12, 1976.

The cover produced by 410 Squadron has a cachet which depicts the unit crest in full colour, as well as all the aircraft ever flown by the squadron since its inception. Details of the flight and autographs of the crew are also included in the design, and the cover is stamped with one of the Royal Military College Centenary stamps. An insert describes the squadron history over the past 25 years of active service.

The 410 Squadron covers are available for \$2.50 from D. Gronbeck-Jones, Box 302, Courcellette, Quebec, Canada G0A 1R0. Also available in very limited quantity are the 1975 cover by 414 Squadron (\$2.50), and the 1974 cover by 416 Squadron (\$3.00).

## LINDNER\*T

A new concept from LINDNER, manufacturers of hingeless stamp albums for over 25 years. The Transparent album that allows you to see both sides without removing the stamps.

# THE BOOKSHELF

**COLLECT CHANNEL ISLANDS STAMPS, 5th ed. Stanley Gibbons Publications Ltd., 391 Strand, London WC2R OLX. 1976. 48 pages, colour. 75p [US\$2] from the publisher or dealers.**

A most useful checklist and guide for collectors of these issues. This new edition includes all the stamp issues of Jersey and Guernsey to May 29 and has been fully revised and up-dated. Postal markings of the region are illustrated and priced. The stamps are pictured in colour on the 48 pages. (H.S.)

\* \* \* \* \*

**STANLEY GIBBONS FOREIGN STAMP CATALOGUE, OVERSEAS SECTION, VOL.1, A-C. 2nd ed. Stanley Gibbons Publications Ltd., 391 Strand, London WC2R OLX. 1976. £6,25 from the publisher or dealers.**

The first 'cycle' of the Gibbons' 'Overseas' catalogues in four volumes was completed this time last year and we are now favoured with the second edition of Overseas 1, with countries 'A' to 'C' listed in alphabetical order. There are many small improvements in the new volume, which now runs to 832 pages compared with 682 last time. For example, the former 'contents' page has been elaborated to include much more detail of the listed countries and their multifarious sub-divisions and the page numbers where these may be found. Thus the extra-territorial ramifications of China occupy a whole column of the two-page contents, and it makes for easier reference. There is also a complete index to all foreign countries included in the four volumes, and the three 'Europe' volumes.

Overseas 1 includes all the new issues of stamps from countries Afghanistan to Cuba during the three years or so since the previous edition and while, last time, many country listings were substantially rewrit-

ten, once again these have been overhauled in a comprehensive survey which has included a revision of stamp prices. (H.S.)

\* \* \* \* \*

**COLLECT BRITISH STAMPS. 18th ed. Stanley Gibbons Publications Ltd., 391 Strand, London WC2R OLX. 1976. 52 pages, colour. 80p [US\$2] from the publisher or dealers.**

This popular publication (almost 1.5 million sold) is reissued in a new edition listing all U.K. stamps with different watermarks and/or perforations, excluding only shades, errors and varieties of the more specialized kind. Stamp prices have been up-dated to two months or so prior to publication. All Special Issues are listed up to and including the 1976 Telephone Centenary stamps. The stamps are depicted in colour on the 52 pages. (H.S.)

\* \* \* \* \*

**PHILATELIC LITERATURE REVIEW, Vol.25, No.2, June 30, 1976. American Philatelic Research Library, P.O. Box 338, State College, PA, 16801, U.S.A.**

Earlier issues of this publication have been reviewed in previous issues of the Canadian Philatelist. It is listed here to bring attention to a short (3½ pages) but very useful article by John E. Lievsay. It is entitled "Preparation of a Tape/Slide Program" and clearly sets out the requirements of a successful programme and the steps to follow in its preparation. It is not strictly philatelic as the steps may be applied to any subject that could be used for such a programme.

\* \* \* \* \*

**PHILATELIC AGENCIES, 1976. 2nd ed. By Frank Hlavacek, P.O. Box 17633, San Antonio, TX, 78217. 8½" x 11", 8 pp, offset. \$1 from the publisher.**

Here is an up to date listing of philatelic

agencies that sell mint stamps to collectors. It ranges from Abu Dhabi to Zambia and provides addresses, language used (English or French), and whether First Day service is available. It also indicates those countries which have received the "Tread With Caution" listing of the APS Watchdog Committee.

There are notes on how to conduct inquiries, send orders, and some points to consider when you try to decide whether to buy your requirements from a dealer or directly from the source.

Added to this useful list is a philatelic journals subscription list and a number of stamp offers. It is well worth its cost.

\* \* \* \* \*

#### UNITED STATES SPECIALIZED CATALOG OF FIRST DAY COVERS, 1976-1977.

43rd ed. Compiled and edited by Leo August and Gerald Strauss. The Washington Press, 1776 Springfield Avenue, Maplewood, NJ, 07090, U.S.A. 1976. 13.3 cm x 20.3 cm. 106 pp., illus, paper. \$1.50 [U.S.].

Two pages more and a price rise of 25c., more postmark illustrations and, of course, upward revisions of prices (706 of them), are the changes that are to be found in this 43rd edition. Air mail covers have shown an average increase of 10%, commemoratives have also increased but the catalogue prices for the UN covers have remained generally steady.

The book is available from stamp dealers or may be ordered directly from the publisher for \$1.50 (US) plus 20c. for postage.

\* \* \* \* \*

Noted but Not Seen:

**THE DEALER'S GUIDE TO CHEMICAL RESTORATION OF POSTAGE STAMPS.** By National Stamp Service, 95 Puritan Drive, Quincy, MA, 02169. 40 pages. \$15.00 postpaid.

You will not learn how to remove postmarks from used stamps but you will learn how to remove the butter stains, ink pad stains, candle wax, etc.

The book also deals with forgeries, alterations, safety paper, phosphorescence and fluorescence and even includes a lesson on how to use an ultra-violet lamp.

# THE MAILBAG

**President H. Sutherland replies to Mr. Long's letter regarding capital gains tax information.**

"I note on p.195 of the Canadian Philatelist for May-June 1976 a letter from Mr. Frank A. Long with respect to capital gains tax information.

There have been no further developments of which I am aware apart from those referred to, the most important one being that set out in the November 1972 number of the Canadian Philatelist. If there are any further developments with respect to this subject they will, of course, be referred to in the Canadian Philatelist.

H. Sutherland,  
President.

**Further information on Yukon postal markings have been received from W. G. Robinson.**

"... I have received a good deal more data from the National Postal Museum, thanks to Jim Kraemer, and can now report the following dates from their records:

1. Clinton Creek  
— opened Nov. 13, 1968
2. Faro  
— opened Oct. 1, 1969
3. Keno Hill  
— closed June 25, 1968
4. McCabe Creek  
— closed Aug. 29, 1969
5. Whitehorse Sub. 1  
— opened Oct. 26, 1972  
— closed Apr. 27, 1973  
— reopened Aug. 1, 1974

I have located some data on the Quill Creek P.O. (Can. Phil., Jul.-Aug., 1976, p.207). The office opened at mile 1111, Alaska Highway, Jan. 27, 1972 and closed July 31, 1973. The Postmaster was the Hudson-Yukon Mining Co., a subsidiary of the Hudson Bay Mining and Smelting Co.

I have also noted recent use of a "POST OFFICE/DAWSON, YUKON" circular rubber dater similar to that of Whitehorse (c.f., Can.Phil., Jul.-Aug., 1976, p.207, fig. 5B)."

W. G. Robinson.

**Associate Editor of BNA TOPICS, Allan L. Steinhart, has provided more information on the use of Roman numerals for months in Canadian post office date stamps.**

"In regard to the various letters written trying to explain the use of Roman numerals in Canadian cancelling devices, all your correspondents are partially incorrect as the use of Roman numerals began in Canada in 1948. The following directive appeared in the Post Office Weekly Bulletin of May 15, 1948, Vol. XXXVIII, No. 1419:

4. In future the month of the year shown in post office date stamps will be indicated by Roman numerals. It is the intention of the Department eventually to use Roman numerals to indicate the month of the year in Post Office date stamps, e.g., 5-IV-48.

This will be done at all Post Offices as the present type becomes exhausted. A start has already been made in the province of Quebec.

I hope this information will be helpful to the various correspondents who have written in on the subject."

Allan L. Steinhart,  
Associate Editor,  
BNA TOPICS.

Ed. note. Further communication with Michael Millar indicates that he has become aware of some misinformation in his letter on this subject in the last issue. He has indicated that a corrected version will be forthcoming.

**John A. Ross would like to see an improvement in the handling of orders by the Philatelic Section and questions the efficiency of the Certified Mail Service.**

"The new "Canadian Stamp News" had a write-up on the people who were in charge of and ran the Postage and Retail Products Branch of Canada Post, i.e.,

Messrs. Nightingale, McDowell and others.

I sincerely hope that other members have not had the exceptionally poor service from them that I have had recently. From around 1955, when I first opened a deposit account with them, until about a year ago, I always had very good service from them.

On April 1, 1976, I forwarded a cheque for \$50 to be applied to my account and asked them to forward to me the \$1 and \$2 Olympic issue. I never received them and the \$50 was not credited to my account until May 10. On May 19 I forwarded to Mr. McDowell a cheque for \$110.00 by certified mail to make sure that there were sufficient funds in my account for any more stamps that might come out. I received back the certified mail card from Mr. McDowell but no answer to my letter which again requested the \$1 and \$2 Olympic stamps. The \$110 forwarded on May 19 was not credited to my account until June 16.

When I could not get the stamps or an answer to my letter, I wrote to the Honourable Bryce Mackasey re the matter on June 11. Mr. McDowell then wrote to me on July 7 in answer to my letter to the Postmaster General. He informed me that the \$1 and \$2 Olympic stamps were being processed and that I should receive them shortly. To date (July 24th) there has been no sign of them. I had written to Mr. Nightingale about the matter, also to Mr. McDowell and the PMG on June 29, again by certified mail. Not only has Mr. Nightingale not replied but all that I got back in response to a second letter was the unsigned certified mail card on July 19. The Postmaster General returned the certificate card immediately but I am still awaiting the card from Mr. McDowell.

What is the use of certified mail if these Canada Post officials act in this manner about them?

Have any other members had this trouble?"

John A. Ross.

### Charles Addington, comments further on nameless postmarks.

"In brief answer to Michael Miller's comments (July-Aug.) on my defence of name postmarks in Canada, just four explanatory points. Firstly, area mail processing does not necessitate code-only postmarks; both the UK and USA postal authorities have demonstrated this fact. Secondly, normal Canadian Procedure, particularly in rural and suburban areas, has been to postmark mail with the name of the nearest cancelling office. Thirdly, the probable preference of many collectors, not to mention the mailing public, is for name postmarks; comparable evidence from the US confirms this point of view. Finally, it is indeed possible to devise names for area postmarks; UK examples are: - LONDON S.W.1., EXETER DISTRICT, BLACKBURN & N.E., FYLDE COAST, SOUTH WEST COUNTY DURHAM; US examples are: WEST PALM BEACH AREA, NORTHERN VIRGINIA. As for further suggestions, wouldn't a letter from TORONTO-YORK be better than one from M1P 4T0 and one from PEEL-TORONTO better than L4W 1T0? Perhaps the Canadian Post Office has some better, less dull ideas."

**THE SALES CIRCUIT--**

By the time you read this we will be into a new season for the Sales Department. I was very busy during the summer returning retired books, however, due to all the changes last year, there are several books for which I have no return address. If you think that you should have received your book(s) and haven't, please let me know.

Many chapters have not sent me their meeting dates for 1976-77. If I know these

dates ahead of time it would help me give you better service.

I shall let you know in the next issue which countries we need for the sales circuit. In the meanwhile, you can be sure that Canada, Australia and New Zealand are needed.

Margaret Allen,  
 Sales Department Director.

**THE CHAPTER COORDINATOR--**

A new philatelic season is just about to get underway so now is the time to send in your requests for slide programmes. Please keep in mind that programmes are scheduled on a first come, first served basis. If you want a particular night an early booking is advised.

The seminar on exhibitions and judging, which was sponsored by the Society and conducted by Dr. Stulberg and me during Stampex, was a great success and all Chapters will have received their copy of the brochure. Because it was printed in a limited quantity, I regret that I am

unable to supply extra copies. There is no copyright on it however, and Chapters are welcome to make copies of it if they want to.

The Society is now proposing to inaugurate a system of apprentice judges who would eventually be certified as being capable of judging local club exhibitions. In order to gauge the interest in this proposal, I would like anyone who would be interested in becoming an apprentice judge to write and let me know.

Michael Millar,  
 Chapter Co-Ordinator

**THE COORDINATOR OF YOUTH ACTIVITIES--****NATIONAL CULTURES ON STAMPS**

Of the many peoples who have contributed to Canada's cultural and economic development few have been honoured by having an entire Province named for their ancestral land.

Nova Scotia is the name that commem-

orates the early Highland settlers who began arriving in Canada over two hundred years ago and made their contributions in every field of endeavour: medicine, agriculture, politics, etc. The first large group arrived at Pictou on September 15, 1773

**Arrival of Scots in  
Nova Scotia [Sc. 619]**

aboard the ship "Hector". The bicentennial year of this great occasion (1973) was designated by Nova Scotia as "The Year of The Hector" and commemorated with a province-wide festival. The Canada Post marked this historic event with a special stamp, thus inaugurating a series of stamps honouring the contributions of immigrant peoples to the prosperity and multicultural character of this Nation.

In August, 1976, the British Post Office issued a series of stamps commemorating British Cultural Traditions. One of these stamps is devoted to the Highland Games which take place every year in Scotland. It is interesting to note the similarity and yet a diversity in the design of the Canadian and British stamps. The British stamp depicts a piper leading people in a dance, the Canadian stamp also features a man with bagpipes, he, however is at the head of a family arriving to carve out themselves a new life in a new land.

**Great Britain:  
Highland Gathering.**

There are many stamps issued in Canada commemorating people and their contributions to our land. A great number of these individuals had their roots and beginnings in other countries, all had ancestors who came to Canada as immigrants. It would be most interesting to start a stamp collection in which similarities and diversities could be illustrated by using postal issues of the various countries.

Should anyone have a collection of this nature now, please send a description to the Coordinator of the Youth Education Program of the Royal.

Sincere congratulations to our representatives at JUVAROUEN '76 in France. Frances Bowley received a silver-bronze medal, Peter Madej a bronze, and diplomas were awarded to Jay Carrick, Debbie Madesker and Uli Walther.

M. Madesker

THE ROYAL

**AN OPEN INVITATION**

to discerning collectors

Selections on Approval  
**BRITISH COMMONWEALTH**  
Our service combines specific "wants" and high quality Commonwealth selections. All clients receive personal attention whether spending \$5 or \$500. Whatever your interest we would like to hear from you. Why not ask for a booklet of either Commonwealth general, Pacific and West Indies countries or the smaller islands of the Commonwealth to be sent to you on approval? And by the way, our price lists, all reigns represented, and including the most recent issues, are yours for the asking.

**J.D. McINTOSH PHILATELIST LTD.****ON THE MALL. STAMP COLLECTING AT ITS BEST**

Walk up to the ultimate in selection and philatelic value; we are located above Dover's Hardware, with our entrance directly at street level on the Sparks St. Mall, between O'Connor and Bank.

**185 SPARKS ST. OTTAWA 238-3844**

Our 70 feet of show cases and 40 feet of floor to ceiling shelving are packed full of the best stamp display to be found in the Ottawa area. We offer stamps in single, set, INTACT COLLECTION, wholesale & retail lots. Both collectors and dealers can expect to find the difficult and the unusual, amply stocked and reasonably priced. If you have had problems finding philatelic accessories, try us.

James D. McIntosh, previously a partner in M & M Stamps Reg'd., and Guy Bourdeau, our helpful & bilingual store manager, both look forward to serving our old and new customers from this ideal new location. In order to record your address, to inform our customers of special offerings in the future, we will give you \$1.00 discount on your first \$10.00 purchase from us. Chargex and Mastercharge both accepted. Fresh, exciting inventory, reasonably priced and displayed to appeal to the hobby at all levels, is the keystone of our firm's merchandising policy. Don't miss out, visit us today!

**Open Tuesday to Saturday, 9:30 a.m. to 5:30 p.m.** Service beyond these hours by appointment. **NO COINS.**

Until we have settled in this new location, we are unable to perform mail order operations properly. We suggest that you visit the store, view and select your purchases directly.
